AI SEARCH VISIBILITY REPORT

Can AI assistants read and cite your website?

https://quietdata.arcfjmt.com

64

Needs work

Score out of 100, from 6 page(s) checked on 2026-11-24.

Area	Score
AI crawler access	40 / 40
Content readable without JavaScript	15 / 15
Structured data	0 / 15
Page basics	6 / 10
Sitemap	0 / 8
Who-you-are signals	3 / 7
llms.txt	0 / 5

Fix these first

1. **Structured data:** Add the Organization JSON-LD from the appendix to your home page <head>.
2. **Sitemap:** Publish an XML sitemap and list it in robots.txt. Most site builders can generate one automatically.
3. **Page basics:** Remove noindex / nosnippet from pages you want to appear in AI answers.
4. **Structured data:** Mark up your main offer pages (Product or Service, with price where it applies) and any FAQ sections (FAQPage).
5. **llms.txt:** Upload the draft llms.txt from the appendix to the root of your site. It is a new, optional standard: cheap to add, but no AI company has promised to use it yet.

This report checks whether AI search and answer engines (ChatGPT, Claude, Perplexity, Google AI Overviews, Bing Copilot) can reach, read and understand your pages. It does not measure how often you are mentioned in answers, which changes from day to

day.

AI crawler access — 40 / 40

✓ robots.txt lets the AI search and browsing crawlers (ChatGPT, Claude, Perplexity, Google, Bing) read the home page.

Crawler	Used for	robots.txt	Test request
OAI-SearchBot	OpenAI (ChatGPT search)	allowed	200
ChatGPT-User	OpenAI (ChatGPT browsing)	allowed	200
GPTBot	OpenAI (training)	allowed	200
Claude-SearchBot	Anthropic (Claude search)	allowed	200
Claude-User	Anthropic (Claude browsing)	allowed	200
ClaudeBot	Anthropic (training)	allowed	200
PerplexityBot	Perplexity (search)	allowed	200
Perplexity-User	Perplexity (browsing)	allowed	200
Googlebot	Google (Search, AI Overviews)	allowed	200
Google-Extended	Google (Gemini training)	allowed	—
Bingbot	Microsoft (Bing, Copilot)	allowed	200
Applebot-Extended	Apple (training)	allowed	—
CCBot	Common Crawl (training)	allowed	—

Content readable without JavaScript — 15 / 15

✓ All 6 checked pages contain their main text in the HTML, without needing JavaScript.

Structured data — 0 / 15

✕ The home page has no Organization structured data, so AI systems have to guess your company name, logo and links.

Fix: Add the Organization JSON-LD from the appendix to your home page <head>.

! No Product, Service, FAQ or Article structured data was found on the checked pages.

Fix: Mark up your main offer pages (Product or Service, with price where it applies) and any FAQ sections (FAQPage).

i Types found: none. Pages with structured data: 0 of 6.

Page basics — 6 / 10

✕ 6 page(s) tell crawlers not to index or quote them (meta robots: noindex).

Fix: Remove noindex / nosnippet from pages you want to appear in AI answers.

! 1 page(s) have no useful meta description.

Fix: Write a one- or two-sentence summary of each page in <meta name="description">. AI answers often reuse it.

Sitemap — 0 / 8

✕ No XML sitemap was found (checked robots.txt and /sitemap.xml).

Fix: Publish an XML sitemap and list it in robots.txt. Most site builders can generate one automatically.

Who-you-are signals — 3 / 7

! No "About" page link was found on the home page.

Fix: Add an About page that says who runs the business, where, and since when.

! No links to your profiles elsewhere (LinkedIn, social media) were found.

Fix: Link your official profiles and list them in the Organization "sameAs" field.

llms.txt — 0 / 5

! No llms.txt file was found at /llms.txt.

Fix: Upload the draft llms.txt from the appendix to the root of your site. It is a new, optional standard: cheap to add, but no AI company has promised to use it yet.

Appendix A — robots.txt snippet

Add or merge this into **https://quietdata.arcfjmt.com/robots.txt**. The second block is optional.

```
# Let AI search and browsing crawlers read the site
User-agent: OAI-SearchBot
User-agent: ChatGPT-User
User-agent: Claude-SearchBot
User-agent: Claude-User
User-agent: PerplexityBot
User-agent: Perplexity-User
Allow: /

# Optional: keep AI training crawlers out
User-agent: GPTBot
User-agent: ClaudeBot
```

```
User-agent: Google-Extended
User-agent: Applebot-Extended
User-agent: CCBot
Disallow: /
```

Appendix B — draft llms.txt

Save as **https://quietdata.arcfjmt.com/llms.txt** after checking the wording. Built from your page titles and descriptions.

```
# quietdata-lab

> quietdata-lab makes small data tools and reports: App Store data on Apify and EU accessibility (EAA / WCAG 2.2) reports. A brand operated by arcfjmt.

## Main pages

- [Quiet tools for loud data.](https://quietdata.arcfjmt.com/): quietdata-lab makes small data tools and reports: App Store data on Apify and EU accessibility (EAA / WCAG 2.2) reports. A brand operated by arcfjmt.
- [Small things, made carefully.](https://quietdata.arcfjmt.com/shop): Reports, downloads, tools and apps from quietdata-lab, a brand operated by arcfjmt. Payments handled by Polar.
- [騒がしいデータを、 静かに使える形へ。](https://quietdata.arcfjmt.com/ja/): quietdata-labは小さなデータツールとレポートをつくっています。ApifyのApp Storeデータツール、EUアクセシビリティ (EAA / WCAG 2.2) 診断レポート。運営：arcfjmt。
- [Leise Werkzeuge für laute Daten.](https://quietdata.arcfjmt.com/de/): quietdata-lab entwickelt kleine Datenwerkzeuge und Berichte: App-Store-Daten auf Apify und Barrierefreiheitsberichte (EAA / WCAG 2.2). Eine Marke von arcfjmt.
- [让嘈杂的数据 安静可用。](https://quietdata.arcfjmt.com/zh/): quietdata-lab 制作小巧的数据工具与报告：Apify 上的 App Store 数据工具，以及欧盟无障碍 (EAA / WCAG 2.2) 检测报告。由 arcfjmt 运营。
- [特定商取引法に基づく表記](https://quietdata.arcfjmt.com/legal)
```

Appendix C — Organization structured data

Paste into the <head> of your home page, and complete the fields (logo, profiles) if they are missing.

```
<script type="application/ld+json">
{
  "@context": "https://schema.org",
  "@type": "Organization",
  "name": "quietdata-lab",
  "url": "https://quietdata.arcfjmt.com/",
  "logo": "/og.png",
  "description": "quietdata-lab makes small data tools and reports: App Store data on Apify and EU accessibility (EAA / WCAG 2.2) reports. A brand operated by arcfjmt."
}
</script>
